- Mouse Ergo PS/2
- JODAV-Device Ergo
- Forearm support Ergo
- Keyboard Ergo PS2

Mouse Ergo PS/2

Mouse Ergo PS/2 has an extremely low and elegant design. This in order to provide the user with absolute best comfort, for a preventive natural position without the power of stress in daily work with a computer.

All key features are centered on the clear control panel, for simultaneous access and natural keystrokes on the keyboard. The comfortable soft hand restraint provides a comfortable rest for the handle, which is removable and can be supplemented as needed, with a larger and deeper support for increased comfort.

The removable rollerbar of the mouse enables cleaning from dirt and liquid, in order to achieve long-term and hassle-free operation.

- Approved for Fibersystem's TEMPEST Level A and RÖS U1-products
- Ultra-thin design and unlike many other controls, the roller can easily be removed and cleaned.
- Sensor 800 dpi laser
- Plug & Play
- The wheelbar is clickable (left mouse button)
- 5 button mouse, incl. scrollwheel
- Dimensions: 390 x 102 x 23 mm
- Weight: 300 g
